

OUR APPROACH

WE WORK ALONGSIDE JOB SEEKERS

We partner with job seekers through our unique coaching model, working together to identify and pursue their goals based on their specific needs and interests. Our coaches support clients as they build skills and advance along their career pathways.

I found hope to get a better life through JVS. It is not just because they have programs to help people get jobs, but because their pieces of training are focused on developing skills and using them to improve the capacity to be a productive part of our communities.

WE MEET PEOPLE WHERE THEY ARE IN LIFE

At JVS, we partner with people from all backgrounds to develop skills for promising careers. We use our language capacity, systems knowledge, and professional expertise to serve refugees and immigrants, individuals with disabilities, and other marginalized groups, matching them with great opportunities.

Prior to me arriving at JVS, I was homeless. I applied to the carpenters' union, then I moved over to the painters' union...I'm the first one in our family to be a tradesman in a union. I'm very proud of that. I have become a legacy for my children.

WE BUILD CONNECTIONS ACROSS HIGH-GROWTH SECTORS

We foster partnerships with employers across high-growth sectors like healthcare, biotechnology, and other industries to fill critical vacancies with skilled workers. From their first job and throughout their career pathway, we connect our clients to quality jobs and careers.

I joined JVS as a biotech student where I had the best teachers, not only that, but everyone in JVS was more than ready to help you in every way possible. Now I'm a biotech student at Quincy College and I can say that JVS was the best thing that happened to me since I got here to this beautiful country.
